

Eland Electric Stage		Cumulus Radio		
				
Saturday, January 18		Saturday, January 18		
	Brief Description of Presentation	Company	Brief Description of Presentation	Company
11:00 AM	Electric Vehicles 101 - Electric Cars are Fun, Fast, and better for the environment. See the 2020 Electric cars and learn how an Electric Vehicle or other clean energy technology has changed over the years and how the world is changing to electric cars. It will change your lifestyle and save you MONEY!	RENEW WISCONSIN	"Dollars and Sense of Solar" - You have heard of solar energy. You have seen the solar panels but is solar power right for you? After this seminar you will have your answers. Eland Electric, the leader in solar installation will be on hand to cover how solar works and what makes it a great investment. Find out about government tax credit and Focus on Energy incentives that makes investing in solar about the same as investing in a new furnace.	Eland Electric
12:00 PM	The fun and ease of outdoor grilling!	MAD DOG & MERRILL	How to turn your home into a Smart Home - First off What is a Smart Home? It sounds complicated and too high tech right? It's not. In fact, after this seminar you will become a "near" expert on how smart homes work. Black-Haak Heating will explain what a smart home is in easy to understand language. They will explain the different options that will help turn your home into a Smart Home. They'll talk about smart thermostats, doorbells, cameras to smart switches and smoke detectors all controlled by your PHONE! Bring your questions!	Black Haak Heating
1:00 PM	Ways to save energy!! Andy will be sharing different ways to save on home energy.	Dr Energy	What happens to the "money" after I close my construction loan? We will talk about the loan draw process from the beginning to the end and, most importantly, what happens to the money and what are the homeowner's responsibilities. Prizes will be given out!	Closing & Title Services
2:00 PM	Home Prep - Sale & Buying Do's & Don'ts. Learn how to avoid surprises in the sale of your home and the do's and don'ts of home buying.	First Weber Group - Wendy Hielsberg	The basics of Solar Energy - Equipment, Incentives and Financials - Why rent electricity when you can own it? Have you ever wondered if a solar array on your home, farm, or business makes financial sense? We will discuss solar technology, learn about the equipment and evaluate the incentives currently available.	Eagle Point Solar
3:00 PM	What to know before buying a generator: Join Kevin from Black-Haak as he talks about powering your home when the power is out. He will walk through what to look for as well as what to look out for when considering a generator for your home. He will also be happy to answer questions you may have relating to backup power for your home	Black Haak Heating	The fun and ease of outdoor grilling!	MAD DOG & MERRILL
